

Safe Practices Manual

General

The employer should develop and maintain a safe practices manual that should be made available at the dive location to each dive team member.

Contents

For each diving mode engaged in, the safe practices manual should include:

- Safety procedures and checklists for diving operations;
- Assignments and responsibilities of the dive team members;
- Equipment procedures and checklists; and
- Emergency procedures for fire, equipment failure, adverse environmental conditions, and medical illness and injury.
